

SERVICES: We specialize in soil, plant and water analyses for crop production and environmental projects. Ten Certified Crop Advisors are available throughout California for consultation and advising on soil fertility, plant nutrition, crop production, salinity management, irrigation management and soil reclamation. Additional services include: crop loss investigation, diagnosis of crop production problems, crop feasibility studies, nitrogen management plans, sediment and erosion control plans, soil moisture monitoring, monitoring and management of domestic and wastewater systems, sample collection service (soil, plant tissue and water), monitoring well sampling and technical reports for businesses and regulatory agencies.

TURNAROUND TIME: Number of working days for reported results after sample is at the Fresno lab, depending on the backlog. Allow extra time for sample shipment, report preparation and delivery.

TERMS: Net 30 days. New customers without established credit will be required to pay in advance.

PRICES: Listed prices are for samples submitted to the laboratory and are subject to change without notices.

MINIMUM INVOICE FEE: \$25.00 We accept Visa, MasterCard and Discover credit and debit cards. Please note there is a 3% convenience fee for credit cards.

FEES PER HOUR:

Consulting	\$125.00 - \$250.00
Legal Testimony	\$300.00 - \$500.00
Research Staff	\$125.00
Sample Collection (Portal to Portal)	\$95.00
Support Staff	\$95.00

QUALITY CONTROL DOCUMENTS: Emailed copies are included at no charge.

DISCOUNTS: Available for volume and contractual work. Please call for a quote.

SAMPLING: Sample containers are provided at no charge. Sampling services are available upon request. Please call for a quote.

SAMPLE STORAGE: After analyses, soil and tissue samples are stored for 30 days; water is stored for 21 days. If requested, samples can be held longer for a monthly storage fee of \$6.00 per sample.

RUSH SAMPLES: Results required in less than normal turnaround time are "rush". Rush samples must be authorized by the Laboratory Director. A 100% surcharge will be applied in most cases. For 24 to 48-hour turnaround 200% surcharge may result. Weekend or holiday work requires individual quotes.

FOREIGN SAMPLES: We are authorized to receive imported soil & plant tissue for analyses. As these samples require special handling, there is an extra \$8.00 per sample for 15 samples or less. For larger groups, special handling charges will be quoted.

HAZARDOUS MATERIAL SAMPLES: These will be returned to client for disposal.

Sampling is available. Please call your Dellavalle Consultant or Technician for a quote.

Analyses to be subcontracted to outside laboratories are noted with a ":" following the price. Additional analyses may be subcontracted at any time at the discretion of Dellavalle Laboratory. Should analyses be subcontracted, it will be to a laboratory currently and appropriately certified for that analysis.

Submission of samples to Dellavalle Laboratory for analysis without specifying details - including, but not limited to: required methods, reporting limits, or quality control restrictions - indicates that the methods for which Dellavalle Laboratory maintains accreditation are sufficient and all other details are to be left to Dellavalle Laboratory's expertise.
