

Capabilities Statement

Dellavalle Laboratory, Inc. has been committed to our clients since 1978.

Headquartered in Fresno, CA, our 8,300 square foot laboratory specializes in soil, water, and plant tissue analysis. Taking pride in quality assurance and quality control measures, our laboratory is certified by the National Environmental Laboratory Accreditation Program (NELAP), the CA Environmental Laboratory Accreditation Program (ELAP), and we participate in the North American Proficiency Testing Program (NAPT). With offices in Fresno, Hanford, and Davis, CA, the Dellavalle team consists of experienced Certified Crop Advisors (CCA), Certified Professional Agronomists (CPAg), certified water treatment and distribution operators (D3/T2), certified field technicians and chemists.

CORE COMPETENCIES

- Physical and chemical water quality analysis (domestic, agricultural, industrial, surface and groundwater)
- Plant Performance (PPAP) and Soil Assessment Program (PAP)
- Nutrient management budgeting and planning
- Irrigation scheduling and soil moisture monitoring
- Domestic/agricultural well testing and groundwater monitoring services
- Salinity management, soil reclamation, and restoration
- Industrial wastewater testing, management, and compliance
- Dairy consulting and regulatory reporting
- Soil surveying, assessment, and land planning for land acquisition, crop production, and erosion control

DIFFERENTIATORS

As a comprehensive service provider, we guide our clients throughout the technical process by collecting, analyzing, and interpreting results. With a research-based and data-driven approach to consulting, we help our clients make informed agronomic decisions to reach their goals and keep them up to date with changing environmental regulations. We hold ourselves to the highest professional standards and ethics in support of natural resources protection and sustainability.
